24Guard-RC

The 24Guard-RC perfectly protects your hard disk drive from software disasters caused by **virus, tampering, accidental destruction, abnormal shutdown, Windows blue screen conditions, registry errors, etc.** It protects **BIOS settings** as well.

Only install 24Guard-RC with your computer and specify the partition(s) you want to protect, can your computer be restored instantly simply by restarting no matter what the cause is. Furthermore, the Remote Control features allow you to update the multiple computers installed with 24Guard-RC simultaneously over network.

The 24Guard-RC not only eliminates the computer downtime but also saves a lot of time and cost in maintenance.

Who Need 24Guard-RC:

⇨ Home Users.

⇨ Computer Labs.
